#1 Diocesan Administrator

Use the Diocesan Administrator code to create a new account with a unique email and user name.

#2 Group Administrator

Use the Group Administrator codes provided by the purchaser to create a unique group name. Forward the group name to catechist users.

For Example: group1.newyorkdiocese or group1.stmarysparish.

Group Administrators can establish multiple groups as shown above.

#3 Group

Groups are created as needed by the Group Administrator(s) to organize catechist users; no additional codes are required to form these groups.

#4 Catechist User

To activate a user account, each catechist must have the exact group name, a valid user code, a personal email, and a unique user name.
To get started, go to www.echoesoffaith.com and click on Create Account.

Complete the required fields and provide a unique user name and email address for future logins; click Create my new account.
User Account Set-up

3
Enter the user Activation code provided by the Group Administrator, or purchased individually; and click **Activate**.

4
Insert the group name provided by the Group Administrator and click **Activate**.
User Account Set-up

5. After the *Join a new group* portion of registration is complete, the **Group Record** box will list the name of the group joined.

6. From the **Learning Center** tab, explore three different modules; once selected, a module's menu drops down featuring available classes. Click on the individual class name to begin a lesson.
